
Software Engineering 2

Cover Sheet

Project Title:

Library dashboard

Project Description:

- Admin and Reader must first log into the library dashboard.
- Admin can manage books in the library (add, update, delete, and list).
- Each book has its own chapters, which the admin control.
- Admin can manage readers (add, update, delete, and list).
- Reader can request a book from the gallery.
- Readers can show the requested books.

Main functions:

Admin User:

- Login/ Logout
- Manage books (CRUD)
- Manage chapters for each book (CRUD)
- Manage Reader (CRUD)
- Accept or decline requests by the reader (CRUD)
- Show the history of reader requests for all books

2. Reader User:

- Login/ Logout
- Can view and filter books
- Send a request to the admin with the required book
- Show a history of book searches related to his account only
